THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D. C. 20505

National Intelligence Officers

16 December 1976

MEMORANDUM FOR THE NATIONAL FOREIGN INTELLIGENCE BOARD

SUBJECT: Team B Report on Soviet Strategic Policy and Objectives

1. Attached is the Team B Report on Soviet Strategic Objectives for NFIB consideration. The two other reports--on ICBM accuracy and low altitude air defense--are being prepared in similar format, but are not yet ready for release. These reports, however, have not changed in substance from the original reports of the study groups, and it is these versions which should be used in preparation for the NFIB meeting on Tuesday, 22 December.

2. I want to caution you--on behalf of the Director--that this document is not for dissemination to consumers of intelligence. The intended audience for the next and final step in the experiment is the President's Foreign Intelligence Advisory Board and the Assistant to the President for National Security Affairs. Those recipients, together with the Director, will then provide for an overall assessment of the validity and utility of the experiment.

  
Richard Lehman  
Deputy to the DCI for National Intelligence
